

Monica G. Bobra

Principal Data Scientist

State of California, Office of Data and Innovation

Email: mbobra@alum.mit.edu

Website: <https://mbobra.github.io>

Positions

Principal Data Scientist, State of California, Office of Data and Innovation (May 2023 – present)

Research Scientist, Stanford University (April 2010 – July 2021)

Astrophysicist, Harvard-Smithsonian Center for Astrophysics (October 2005 – August 2007)

Education

University of New Hampshire, Master of Science in Physics (January 2010)

Boston University, Bachelor of Arts in Astronomy (May 2004)

Refereed Publications

Bibliometrics: 3400+ total citations, h-index of 22

Manolis Georgoulis, Stephanie L. Yardley, Jordan A. Guerra, Sophie A. Murray, Azim Ahmadzadeh, Anastasios Anastasiadis, Berkay Aydin, Graham Barnes, Alessandro Bemporad, Federico Benvenuto, Monica G. Bobra, Cristina Campi, Enrico Camporeale, A. Gordon Emslie, David Falconer, Li Feng, Weiqun Gan, Lucie Green, Sabrina Guastavino, Mike Hapgood, Irina Kitiashvili, Ioannis Kontogiannis, Marianna B. Korsos, K. D. Leka, Paolo Massa, Anna Maria Massone, Alexander Nindos, Athanasios Papaioannou, Sung-Hong Parka, Spiros Patsourakos, Michele Piana, Nour E. Raouafia, Viacheslav M. Sadykova, Shin Toriumi, Angelos Vourlidas, Haimin Wang, Jason T. L. Wang, Kathryn Whitman, Yihua Yan, Andrei N. Zhukov. “Prediction of Solar Eruptive Events Impacting Space Weather Conditions.” 2024, *Advances in Space Research*.

Zeyu Sun, Monica G. Bobra, Xiantong Wang, Yu Wang, Hu Sun, Tamas Gombosi, Yang Chen, and Alfred Hero. “Predicting Solar Flares using CNN and LSTM on Two Solar Cycles of Active Region Data.” 2022, *Astrophysical Journal*, 931, 163.

Spiridon Kasapis, Lulu Zhao, Yang Chen, Xiantong Wang, Monica G. Bobra, Tamas Gombosi. “Interpretable Machine Learning to Forecast SEP Events for Solar Cycle 23.” 2022, *Space Weather*, 20, e2021SW002842.

Monica G. Bobra, Paul J. Wright, Xudong Sun, and Michael J. Turmon. “SMARPs and SHARPs: Two Solar Cycles of Active Region Data.” 2021, *Astrophysical Journal Supplement Series*, 256, 26.

Selected Talks

Monica Bobra. “Using Data Science to Drive Innovation.” California Government Innovation Summit 2025. Sacramento, CA, August 2025. [Invited]

Monica Bobra. “An Open Approach to Data Science at the State of California.” Workshop: Building an Open-Science Community. Stanford University, Stanford, CA, April 2025. [Invited]

Monica Bobra. “An Ethical Approach to Data Science at the State of California.” California Natural Resources Agency / Department of Water Resources 2024 Environmental Sciences Workshop, California Natural Resources Agency Headquarters, Sacramento, CA, November 2024. [Invited]

Monica G. Bobra and Dan Wang. “Forecasting Community Water System Outages.” Science Understanding through Data Science, Caltech, Pasadena, CA, August 2024.

Monica G. Bobra, “A Review of Solar Flare Prediction Using a Modern Scientific Workflow.” Indian Institute of Astrophysics Golden Jubilee Conference Series: Advances in Observations and Modelling of Solar Magnetism and Variability, Virtual Conference, March 2021. [Invited]

Monica G. Bobra, “Machine Learning in Heliophysics.” The National Academy of Sciences Space Weather Operations and Research Infrastructure Workshop, Virtual Workshop, September 2020. [Invited]

Monica G. Bobra, “Forecasting Solar Flares.” Scientific Computing with Python (SciPy), Virtual Conference, July 2020.

Monica G. Bobra, “SunPy: Status of the Project and v1.0 Core Package.” Scientific Computing with Python (SciPy), Virtual Conference, July 2020.

Monica G. Bobra, “An Overview of Solar Flare Prediction Using Machine Learning Techniques.” Machine Learning in Heliophysics, Royal Tropical Institute, Amsterdam, Netherlands, September 2019.

Monica G. Bobra, “Predicting Solar Flares Using Machine Learning Methods.” PyAstro, Flatiron Institute, New York, NY, May 2018. [Invited]

Monica G. Bobra, “Predicting Solar Activity Using Machine Learning Methods.” AGU Fall Meeting, New Orleans, LA, December 2017. [Invited]

Monica G. Bobra, “Machine Learning in Solar and Space Physics.” National Academy of Science Space Studies Board Fall Meeting, Irvine, CA, November 2017. [Invited]

Monica G. Bobra, “Solar Flare Prediction.” Lorentz Center Workshop: Space-Weather – A Multi-Disciplinary Approach, University of Leiden, Leiden, Netherlands, September 2017.

Monica G. Bobra, “Machine Learning in Practice: Solar Flare Prediction.” NASA Frontier Development Laboratory’s Artificial Intelligence Deep-Dive Workshop, NVIDIA Corporation, Santa Clara, CA, June 2017. [Invited]

Monica G. Bobra, “Machine Learning and Understanding Our Sun.” National Academy of Science Symposium on America’s Future in Civil Space, Washington, D.C., May 2017. [Invited]

Monica G. Bobra, “Solar Flare Prediction.” CCMC-LWS Working Meeting: Assessing Space Weather Understanding and Applications, Cape Canaveral, FL, April 2017.

Monica G. Bobra, “Solar and CME Prediction: 3 Ways.” Flare Prediction Workshop, International Space Science Institute, Bern, Switzerland, October 2016.

Monica G. Bobra, “Studying Solar Flares with the Solar Dynamics Observatory.” Southwest Research Institute, San Antonio, TX, April 2016. [Invited]

Monica G. Bobra, “Solar Flare Prediction with Machine Learning Algorithms.” UC Berkeley Algorithms Machines People (AMP) Laboratory, Berkeley, CA, March 2016. [Invited]

Monica G. Bobra, “Space-Weather HMI Active Region Patches (SHARPs).” Forecasts and Warnings of Extreme Solar Storms Workshop, Lund University, Lund, Sweden, May 2015. [Invited]

Monica G. Bobra, “Solar Flare Prediction Using SDO/HMI Vector Magnetograms with Machine Learning Algorithms.” Lockheed Martin Solar and Astrophysics Laboratory, Palo Alto, CA, March 2015. [Invited]

Community Service

- Advisory Board Member, Stanford Doerr School of Sustainability / Taking the Pulse of the Watershed, 2025 – present
- Advisory Board Member, NASA Jet Propulsion Laboratory / Enhancing Power Grid Resilience Through Multi-Hazard Analyses and Dynamic Responses, 2025 – present
- Member of the Steering Committee, SunPy, 2024 – present
- Vice-Chair of the Board, SunPy, 2017 – 2024
- Editor, Journal of Open Source Software (2019 – present)
- Founding Member, Python in Heliophysics (2018 – present)
- Referee for *Astrophysical Journal*, *Astrophysical Journal Letters*, *Solar Physics*, *Space Weather*, *Monthly Notices of the Royal Astronomical Society*, and *Astronomy & Astrophysics* (2010 – present)
- Contributing Editor, *Sky & Telescope Magazine* (2020 – 2023)
- Advisory Board Member, Artificial Intelligence Data Analysis (AIDA) Project [funded by the European Union’s Horizon 2020 Research and Innovation program] (2019 – 2021)
- Founding Member, Stanford Data Science Institute Center for Open and Reproducible Science (2020 – 2021)
- Founding Member, Machine Learning in Heliophysics (2020 – 2021)
- Member, NASA Solar Dynamics Observatory Science Team (2010 – 2021)

- Member, National Academy of Sciences Committee for the Review of Progress toward Implementing the Decadal Survey, Solar and Space Physics: A Science for a Technological Society (2018 – 2020)
- Chair, American Astronomical Society Solar Physics Division Popular Writing Award Committee (2014 – 2019)
- Member, NASA Hinode Science Team (2005 – 2010)
- Member, NASA Transition Region and Coronal Explorer Science Team (2005 – 2008)

Conferences and Workshops

- Science Organizing Committee member, SciPy 2022
- Science Organizing Committee member, Cloud Computing for Space Research Workshop at Committee on Space Research (COSPAR) 2021
- Co-Chair of Science Organizing Committee, Python in Astronomy 2020
- Science Organizing Committee member, Machine Learning in Heliophysics 2019
- Science Organizing Committee member, Python in Astronomy 2019
- Science Organizing Committee member, Space Sciences at Stanford 2019
- Science Organizing Committee member, Solar Dynamics Observatory Science Meeting SunPy Workshop 2018
- Science Organizing Committee member, Solar Dynamics Observatory Science Meeting Machine Learning Workshop 2018
- Science Organizing Committee member, American Astronomical Society Solar Physics Division Meeting SunPy Workshop 2017
- Science Organizing Committee member, NASA Frontier Development Laboratory Deep-Dive AI Workshop 2017

Academic Mentorship

Mentored graduate students, undergraduate students, and early-career scientists independently and through the UC Berkeley Graduate Data Corps, NASA Frontier Development Laboratory, Stanford Physics Summer Undergraduate Research Program, and Google Summer of Code (for contributions to SunPy). [Please email for a list of names.]

Awarded Grants

Tamas Gombosi (PI), Spiro Antiochos, Graham Barnes, Monica Bobra, Yang Chen, David Fouhey, Alfred Hero, Todd Hoeksema, Enrico Landi, KD Leka, Yang Liu, Tuija Pulkkinen, Philip Scherrer, Peter Schuck, Igor Sokolov, Shasha Zhou, “Solar Storms and Terrestrial Impacts Center (SOLSTICE).” 2019. NASA 18-DRIVE18-0006. Award amount: \$1,302,162.00.

Monica Bobra (PI), Eric Jonas, Todd Hoeksema, Philip Scherrer, “Prediction of solar eruptions with machine-learning algorithms combining physical models and observations.” 2019. NSF Solar Terrestrial Program, Award Number 1922713. Award amount: \$494,705.00

Junwei Zhao (PI), Marc DeRosa, Monica Bobra, Todd Hoeksema, Shea Hess Webber, Philip Scherrer, “Reliably Inferring the Sun's Far-Side Magnetic Field Based on the Time-Distance Helioseismic Imaging Method.” 2018. NASA N7-HSWO2R17-0003. Award amount: \$248,482.00

Awards

Robert H. Goddard Exceptional Achievement for Science Award (2024)
 NASA Group Achievement Award, SunPy Development Team (2024)
 American Astronomical Society Solar Physics Division Popular Media Award (2021)
 NASA Group Achievement Award, Solar Dynamics Observatory Team (2017)
 Robert H. Goddard Exceptional Achievement for Science Award (2016)
 NASA Space Grant Fellowship (2008-2009)
 NASA Group Achievement Award, Hinode Team (2007)
